REPLY TO NOTICE TO FILE CORRECTED APPLICATION PAPERS

Mail Stop Missing Parts
Hon. Commissioner of Patents
P. O. Box 1450
Alexandria, VA 22313-1450

Sir:

This Reply paper is in response to the August 21, 2007 "Notice to File Corrected Application Papers".

The Notice requires that certain items must be timely filed to avoid abandonment.

Applicant's Attorney submits the following items in response to the Notice:

- (1) a substitute specification in compliance with 37 CFR 1.52, 1.121(b)(3), and 1.125, including a marked up copy and a clean copy without markings;
- (2) replacement drawings in compliance with 37 CFR 1.84 and 1.121(d);
- (3) replacement claims, commencing on a separate sheet;
- (4) an Abstract of the technical disclosure, commencing on a separate sheet; and
- (5) a copy of the Notice.

The application was originally filed in French and an English translation thereof was filed in the United States. The translator's product had numerous "format problems, such as improper

line spacing, no paragraph numbers, the specification, claims and “summary” were run together and not on separate pages, and certain MPEP requirements - such as providing captions between the various areas of the specification, were not complied with.

The substitute specification submitted herewith is believed to comply with current Patent Office practice.

Further, the substitute specification is rewritten to be more grammatically correct and clarify places where indefiniteness may be presented (e.g., the use of the word “it” or “its” and the like terms).

Importantly, no new matter is introduced.

Applicant’s Attorney submits that the requirements of the Notice have been satisfied by this Reply paper.

Respectfully submitted,
